Walk on the Wild Side.
If you talk with the animals they will talk with you and you will know each other.

If you do not talk with them you will not know them and what you do not know you will fear.

What one fears one destroys!

Chief Dan George

Tsleil-Waututh

Walk on the Wild Side

Providing a Unique approach to Conserving Africa’s Natural Resources.

- Take a walk on the wild-side as we learn more about:
  - Flora and Fauna
  - Walking the big Cats
  - Cheetah Interaction
  - Birds of Prey
  - Reptiles
  - Arachnology
Conservation and Education Projects

As a private group of people dedicated to Nature Conservation and the preservation of our Natural resources, we feel that everybody needs to play a role in conserving this continent’s wildlife.

We are actively involved in providing a visual and tactile approach in Southern Africa and beyond, so as people may gain an understanding of the importance of conserving, managing and the development of our natural resources, thus ensuring the survival of our wildlife heritage.

- Conservation of species for future generations.
- Environmental threats to specific animal species.
- Basic identification.
- Species specific roles in the ecological system.
- Animal behavior and statistics.

Join us as you interact with predators, birds of prey and reptiles in their natural environment.

Take a Walk on the Wild Side!
Walk on the Wild Side

People remember:
10% of what they read
15% of what they hear
85% of what they are able to touch, smell and feel.

It is essential to understand our relationship with nature.

So we have developed a program for both adults and children where we can all experience and enhance this understanding of Africa’s unique wildlife.

Many years of combined experience handling habituated wildlife has allowed us the opportunity to offer a conservation project combining the three main groups of animals and direct interaction with humans.

Take a Walk on the Wild Side and into the real world of predators, birds and reptiles.

Touch, Smell, Feel, Learn and Connect with Africa’s Wildlife in their Natural Environment.

This is Nature as you have never experienced before!

Should you require further information on how we can assist you in getting involved with this unique Conservation Project please contact the Project Management below:

Deborah: 073 3819892 (bookings)
Martin: 082 7472205

Walk on the Wild Side offer the following experiences:

A comfortable two hours drive from OR Tambo International Airport and you are in the rolling hills in the heart land of South Africa.

Please arrange the package you want to book for with our booking agent Deborah 073 381 9892  deborah.gill@rocketmail.com

Arrive before 9:00 am. And let us get to know a little more about reptiles including snakes and crocodiles.

You may need to relax a little at the indoor heated swimming pool or get some refreshments at the bar after your coldblooded experience!

Have you got your walking boots on? Are you fit and ready for a walk on the wild side?—oh did we mention that for the next hour the lions will be walking with you??

It’s a good job you will have experienced guides to accompany you!

While on the walk we will learn more on the unique flora and fauna, in the area. Predators and their behavior and other wildlife we may come across!

Use your food voucher to grab a delicious meal from the restaurant while the lions watch you!

No time to rest now– you may come across the fastest land mammal—the cheetah!

An interaction with birds of prey is the perfect way to end an amazing walk on the wild side experience subject to availability.

Become one with nature by join us on the conservation adventure of a lifetime!
